## Lake Edina Neighborhood Roadway Reconstruction

Dear Resident:

The following is an update of the project in your neighborhood. To view a map of the three stages in your neighborhood, visit [www.EdinaMN.gov/lake\\_edina\\_roadway\\_reconstruction](http://www.EdinaMN.gov/lake_edina_roadway_reconstruction).

### Neighborhood Reconstruction Schedule – Stage I

At this time, crews are scheduled to begin paving the final layer of asphalt in Stage I on Thursday, Sept. 26, weather permitting. If you have any special needs or questions, feel free to ask one of the workers or myself for assistance. Because crews use the entire roadway for paving, all on-street parking will be restricted until the roadway is finished. The roadway will be open to traffic, but minor delays should be expected. Crews will hand deliver a notice a day in advance of paving that will contain specific information regarding the paving process.

### Neighborhood Reconstruction Schedule – Stage 2 and 3

Next week, contractors will continue repairs of the sanitary sewer main lines on portions of Monardo, Larkspur and Phlox lanes. Affected residents will be without sewer service for up to eight hours and will be asked not to use the shower, wash clothes or dishes and limit toilet flushing. If this work affects you, you will receive a detailed notice on your front door in advance. Crews will make every effort to finish the work quickly to limit the inconvenience.

Once the sanitary sewer main lines have been fully repaired, crews will pave the final layer of asphalt on your streets. At this time, it is not known how long it will take to have all the sewer lines repaired, but crews are trying to schedule paving for late next week or early the following week for the rest of the neighborhood. Crews will hand deliver a notice a day in advance of paving that will contain specific information regarding the paving process.

### Neighborhood Reconstruction Schedule – All Stages

Crews will continue to work on site cleanup and miscellaneous restoration items by power cleaning the roadway surface and gutters as well as taking care of any outstanding miscellaneous tasks.

A final inspection of the hydro-seeded areas will be made as the maintenance period nears completion in spring 2014. The contractor may return in the next few weeks to add more hydro-seed as needed.

Please refer to the handout you received to reference other tips how to care for your hydro-seeded lawn.

Reminder: Please do not park on the street during working hours daily. This will keep the roadway open and clear for the cleanup and sweeping work to take place in preparation for paving day. Please pass this information on to your contractors or service workers.

### Communications

For detailed information about the project, visit

[www.EdinaMN.gov/lake\\_edina\\_roadway\\_reconstruction](http://www.EdinaMN.gov/lake_edina_roadway_reconstruction). The City of Edina and Palda & Sons thank you for your patience and cooperation throughout the project.

If you are in need of assistance after hours or on weekends, call the Edina Police Department non-emergency number at 952-826-1600.

Regards,

Aaron Kuznia
